Dear Rob

Just a quick note to thank you for your efforts in developing our new website, www.vindexsystems.com. We are delighted with the results and very impressed with the speed and professional way you went about the work throughout the project. We will be using you again in the future and would also be happy to recommend you to any of our business partners

Please do not hesitate to ask a potential client to contact me on my mobile 07766 051183 if they require any further information.

Yours sincerely
